Here's a few of the company's best products to help you take on your next DIY or kitchen adventure.22" BEHT350 Hedge TrimmerThis corded hedge trimmer is the perfect length for making quick work of overgrown bushes. The sharp blades make clean cuts, and the tool is surprisingly lightweight and easy to maneuver. With blowing speeds of up to 180 miles per hour, it's a tool that speeds up even the biggest task. The corded machine provides the convenience of a quick start, and you don't have to deal with the hassle of gas. Although it packs a lot of power, it still weighs only 4 pounds, putting less strain on your arms and back.CC0/Vladvictoria/Pixabay LLP120 20-Volt Lithium-Ion Cordless Alligator LopperThis innovative product isn't quite a chainsaw, but it's a great improvement on a set of manual pruning shears. The hand held tool has the shape of a large pair of scissors, but one arm of the scissor has a rotating chain to chop off larger tree branches. Because the tool clamps down and then cuts the branch, it gives the user more control and safer operation. It's battery powered and claims to make 150 cuts before needing another charge. And don't worry about needing a specific battery or charger for each machine. Most of the Black & Decker outdoor tools use the same battery type and are interchangeable.CC0/MireXa/Pixabay BEMW482BH Electric Lawn MowerFor routine lawn maintenance, this corded lawn mower cuts through even tall grass and includes a collection bag to easily gather all the clippings. An easy push button start and tall rugged wheels help you trim up your lawn in no time. This machine is ideal for small yards, but with the use of an extension cord, it can take on larger areas as well. The plug-and-go ease of this machine will make lawn care seem like less of a chore.CC0/Skitterphoto/Pixabay LDX120PK 20V MAX Cordless Drill and Battery Power Project KitYou are always prepared for every home repair with this drill and project pack. This handheld vacuum cleaner is cordless for easy maneuverability and has a narrow nozzle that can get into tight corners. Great for cleaning out your car or under the couch cushions, it provides great power and suction, and the clear canister makes it easy to see when it needs to be emptied.CC0/lockine/Pixabay 6-Slice Digital Convection Countertop Toaster OvenThis countertop toaster oven does way more than just toast bread. It has bagel, pizza and frozen snack settings, plus the ability to function as a convection oven. The convection function cooks food 20% faster than other toaster ovens, and the adjustable oven rack has three setting options and is roomy enough for six slices of bread. For basic toast, the digital control panel allows you to cook it exactly to your preferred browning level.CC0/CordMediaStuttgart/Pixabay DCM18S Coffeemaker, Black/Stainless SteelThis personal coffeemaker is great for a grab and go cup of joe. With a one-touch brew function and automatic shut off, all you need to do is position the included travel mug, add your favorite coffee and start brewing. This machine doesn't need paper filters. Instead, it has its own permanent filter that is easy to clean. It's definitely a scaled down version of some of the fancier coffee machines, but it's perfect when you need a quick pick-me-up.CC0/StockSnap/Pixabay 6-quart 11-in-1 Cooking Pot, Stainless Steel, Pressure Cooker, Slow Cooker, Multi-Cooker, PR100Pressure cooking is one of the hottest trends in the kitchen right now.
